The Balnea Romana experience is a circuit of contrasts inspired by the ancient Baths of Caracalla in Italy, where you can heal both body and soul with waters sourced from the Fuencaliente Spring. The alternation between humid and dry environments, as well as cold and warm temperatures, will purify your body by eliminating toxins, relieving respiratory congestion, and stimulating blood circulation.

The waters of the Fuencaliente Spring are rich in bicarbonate, chloride, calcium, and sodium, and are indicated for digestive, metabolic, antacid, anti-inflammatory, diuretic, and nervous system treatments.

Experience calm, serenity, health, and well-being in our thermal pool. Enjoy a thermal water pool, a variety of jacuzzis, soothing and tension-relieving jets, water curtains and cannons, and designated relaxation areas—all designed to stimulate your blood circulation, relax your muscles, and provide you with a profound sense of tranquility and well-being.

We offer numerous treatments that allow you to discover a wellness experience through the properties of our mineral medicinal waters in state-of-the-art facilities.

A highly skilled team works with the best techniques and products, tailoring each treatment to your needs.
